

This Certificate is presented to

OrganicCare Inc.

by the

Department of Conservation and Recreation (DCR)

to recognize their voluntary participation in the *Green & Clean Initiative*.

By participating in this initiative, this company has demonstrated a commitment to protecting Virginia's waters while providing responsible lawn care service by following the

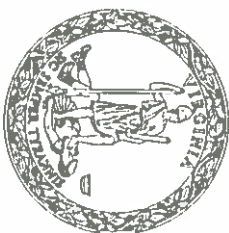

Virginia Nutrient Management Standards and Criteria

established by DCR in the Virginia Administrative Code §4 VAC 50-85-10 et. seq.

This company has reported fertilizer usage for the 2018 calendar year.

Proper management of fertilizers on turf and landscape areas promotes healthy rivers, lakes, and streams in Virginia by reducing the risk of nutrient accumulation.

This certificate may be used to promote the company during the 2019 calendar year unless participation is canceled by either party via written notification.

Timothy P. Sexton
Nutrient Management Program Manager,
Division of Soil and Water Conservation
Department of Conservation & Recreation
